

ANDS Collections Registry: Log entry examples

Each ANDS Collections Registry administration log entry shows the date and time of the transaction, the IP address from which the transaction was made, and the name of the entity carrying out the transaction.

Entry 1. Error message shown when RIF-CS elements are entered out of sequence. The file fails to be ingested into the ANDS Collections Registry. Refer to the RIF-CS schema for correct sequencing.

## TEST ##
PUT HARVEST DATA
Request IP: 130.56.60.96
Harvest Request ID: 5083CE2150A8C85740F29AFB3B7163E9BD134DD7
Harvester IP: 130.56.60.96
Mode: TEST
Done: TRUE
>>ERRORS
Document Validation Error: DOMDocument::schemaValidate() [
```

Entry 2. Result of manual deletion of a record.

```
[2] 2010-05-27 11:52:17 150.203.59.9 Sally Goodenough (sally.goodenough@anu.edu.au)
DELETE REGISTRY OBJECT
Key: sallyserv
ACTIONS
  1 Registry Object deleted.
```

Entry 3. Result of editing and saving record manually. Note that on Save the earlier record is deleted and replaced by a new one.

```
[3] 2010-05-27 11:48:19 150.203.59.9 Sally Goodenough (sally.goodenough@anu.edu.au)
ADD REGISTRY OBJECT
Key: hdl:102.100.100/bootcamp013
SOURCE DATA
  1 registryObject element/s.
  8 elements.
ACTIONS
  1 Registry Object/s deleted.
  1 Registry Object/s inserted.
  4 attempted inserts.
```

4 inserts.

Entries 4 and 5. Result of selecting the Import button. The ANDS APSRHarvester/1.0 has retrieved a file using Direct HTTP and attempted to load it into the ANDS Collections Registry but has failed due to errors in the document.

```

the document in Entity, line: 30
```

Entry 6. Result of save of manual entry of record for new registry object into ANDS Collections Registry.

```
[6] 2010-05-25 15:35:11 150.203.59.9 Sally Goodenough (sally.goodenough@anu.edu.au)
ADD REGISTRY OBJECT
Key: hdl:102.100.100/bootcamp012
SOURCE DATA
  1 registryObject element/s.
  7 elements.
ACTIONS
  0 Registry Object/s deleted.
  1 Registry Object/s inserted.
  3 attempted inserts.
```

3 inserts.

Entries 7 and 8. Result of selecting the Test button.

Entry 7 successfully submitted a test harvest request to the URI provided.

Entry 8 attempted a test load of the uploaded raw RIF-CS XML file into the ANDS Collections Registry. Note the errors.
